Reasons for allowance

The following is an examiner's statement of reasons for allowance: The oil in water emulsion and the process to prepare it wherein the emulsion comprises a product ingredient selected from a nutritionally or pharmaceutically or cosmetically suitable ingredient and a recombinant collagen like peptide comprising at least one GXY domain having a length of at least 5 consecutive GXY triplets, wherein X and Y each represents an amino acid and wherein at least 20% of the amino acids of said recombinant collagen-like peptide are present in the form of consecutive GXY triplets are free of the prior art and therefore allowable .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Election/Restrictions

Claims 23,25,27-40,42 and 44-49 are allowable. The restriction requirement between groups, as set forth in the Office action mailed on 05/04/2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Thus the non-elected material in claim 44 the nutritionally or cosmetically suitable ingredient does not have to be withdrawn from the claim. Because claim 23 is generic to all that was encompassed within groups I-III in the Office action mailed on 05/04/2006 the examiner already

conducted a search on the non-elected material, therefore the examiner withdrew the restriction requirement.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
